EDUCATION

University of Illinois at Chicago

Master of Science in Computer Science GPA - 4.0/4.0

Graduated May 2026

Chicago, IL

Indian Institute of Information Technology Dharwad

Bachelor of Technology in Computer Science Engineering GPA - 3.25/4.0

Graduated May 2023

Karnataka, India

EXPERIENCE

Software Engineering Intern

Costco Wholesale

July 2026 – Present

Chicago, IL

- Design a Member Communications Service in Java/Spring Boot, using Azure Service Bus and Adobe Journeys to deliver shipment data to members.
- Containerize and deploy the service via Docker, Kubernetes, and CI/CD, owning it end-to-end from design to production.
- Monitor application health with Azure Monitor and Application Insights, adding structured logging, alerts, and health checks.
- Build and optimize REST APIs and SQL stored procedures on SQL Server for the HighJump/Korber warehouse platform.

Tech: Java, Spring Boot, Azure Service Bus, Docker, Kubernetes, CI/CD, Azure Monitor, REST APIs, SQL, Git

Research Assistant

University of Illinois at Chicago

April 2025 – May 2026

Chicago, IL

- Developed a full-stack web application for the University of Illinois School of Public Health research team using React, Django, and MySQL, enabling researchers to securely manage and access study data.
- Built Python/Pandas data pipelines to automate cleaning, validation, and transformation of public health research datasets, reducing processing time by 96%.
- Collaborated with faculty researchers to gather requirements, implement new features, and rapidly iterate on both the research platform and data workflows based on user feedback.

Tech: Python, React, Django, REST APIs, MySQL, Pandas, SQL

Software Engineer

Fidelity National Information Services - FIS Global

Sept 2023 – Aug 2024

Pune, India

- Built and shipped production features end-to-end in Spring Boot and AngularJS, collaborating with product and design teams within an Agile environment.
- Resolved 40+ production bugs and optimized MySQL queries via RESTful APIs, improving page load times by 30–40% on high-traffic financial workflows.
- Designed normalized relational schemas and stored procedures for batch processing; contributed to code reviews enforcing reliability, scalability, and maintainability standards.

Tech: TypeScript, Angular, Java, Spring Boot, REST APIs, MySQL

PROJECTS

FinSight - AI Personal Finance Advisor | [GitHub](#) | [Live Demo](#)

- Built full-stack AI finance advisor with Plaid integration, async FastAPI backend, and React frontend; secured data with AES-256 and JWT.
- Implemented Llama 3 function calling for natural language queries over transaction data with streaming responses and anomaly detection.

Tech: Python, ReactJS, FastAPI, PostgreSQL, OpenAI API, Plaid, , SQLAlchemy, Docker

RhythPic - Collaborative Real-Time Music Platform | [GitHub](#) | [Live Demo](#)

- Built a real-time collaborative music platform using React, Node.js, Firebase, Spotify, and Genius APIs, enabling synchronized playlist management and reducing external API calls by 60% through caching.

Tech: ReactJS, TypeScript, Node.js, Firebase, Spotify API, Genius API

TECHNICAL SKILLS

Languages: Java, Python, TypeScript, JavaScript, SQL

Backend: Spring Boot, Node.js, Express, Django, FastAPI, REST APIs, Spring Security

Frontend: ReactJS, Next.js, Angular

Databases: PostgreSQL, MySQL, SQL Server, MongoDB

Cloud & DevOps: Microsoft Azure (Service Bus, Monitor, Application Insights), AWS (EC2), Docker, Kubernetes, Git, GitHub Actions, CI/CD

Other: JWT, AES-256, OpenAI API, Plaid, SQLAlchemy, Firebase, Spotify API, Genius API
